## COMMITTEE TOLD DRAMATIC TALE OF SHIPWRECK

Third Officer of the Titanic  
Moves Hearing by Sim-  
ple Description of  
Catastrophe

## MOANING LASTED AN HOUR

Those Left on the Ship  
Moaned Continually for  
an Hour and Then  
Gradually Quieted

## SHIP NEAR BUT HEEDLESS

Fourth Officer Testifies  
There Was Ship but Five  
Miles Away Which  
Kept Aloof

Plenty of Boats  
Sailing from New York to-  
day:  
• North German Lloyd, Bar-  
dosa; 480 passengers and crew;  
• 1,400 lifeboat space.  
• Holland-American, Rotterdam.  
• 1,411 passengers and crew;  
• 1,455 lifeboat space.

WASHINGTON, April 23.—Death  
cries of the Titanic's 1,600 victims  
re-echoed through the senate build-  
ing today when Third Officer Her-  
bert J. Phipps vividly described the  
sinking of the great ship to the sen-  
ate investigating committee.

Prayers, cries and moans—a  
mighty chorus of woe—rose from the  
trapped victims. The British officer  
told the pathetic story in an al-  
most stolid manner. But even he be-  
came moved by the committee not to press him  
along that line.

"It was a continual moan for about  
an hour," he said. "It died away  
gradually."

Recollection Moves Him  
"Is that all you care to say about  
that aspect?" he was asked.  
"I'd rather you'd left that out al-  
together," he big, brawny Briton  
pleaded, as his voice choked in emo-  
tion of recollections.

Tears welled to eyes of many of  
the women in the room. Phipps was  
the first witness today. Fourth Of-  
ficer Boxhall was too ill to resume  
cross examination. Phipps told of  
the entire voyage. He said the Titanic  
was traveling about 21½ knots an  
hour. He declared he knew the offi-  
cers were warned Saturday or Sun-  
day of icebergs on their route, and  
that the bergs were charted on the  
ship's map. He was asleep and hard-  
ly awakened when the iceberg was  
struck.

Then followed his tale of terror.  
He said J. Bruce Ismay met him  
near a lifeboat and asked that the  
boats be loaded with women. He said  
that Captain Smith gave the orders  
after Ismay made the suggestion.

Four Explosions  
Phipps said his boat saved forty  
passengers and six of the crew. He  
heard four explosions before the Ti-  
tanic went down, pitching perpen-  
dicularly.

Women sucked in their lips nerv-  
ously and gripped their chairs, as  
Phipps told of the wholesale drown-  
ings. A high wind moaning and whis-  
tling through window cracks shocked  
the tense nerves of the crowd. Be-  
fore all was the word picture of the  
Titanic's end in Phipps's brusque,  
laconic words.

## Want Sailors Released

Ismay and Franklin today secured  
a concession from the senate in  
having the hearings at 10 o'clock  
instead of a half hour later. This is  
to conclude the testimony of the Ti-  
tanic sailors as early as possible, to  
enable their return home abroad.  
Most of them residing in England.  
Night sessions are also planned by  
the committee until the crew's tes-  
timony is completed. No additional  
subpoenas have been served, but  
several more American survivors among  
the passengers will be called. When  
the Titanic's crew are heard, the pas-  
sengers will follow at intervals. The  
hearings may not be closed for two  
or three weeks because of the inter-  
mittent sessions of the committee.

## Peuchen on Scene

Major Arthur Peuchen of Toronto,  
millionaire yachtsman, has arrived  
and will probably be one of the first  
passengers heard. He was brought  
from Canada with a committee sub-  
poena. Major Peuchen charges the  
Titanic's officers with gross negli-  
gence; says their carelessness caused  
the disaster and asserts that Captain  
Smith was host at a millionaire  
dinner party just before the Titanic  
crashed into the floating obstacles.

## Vessel 5 Miles Away

Cross examination of Fourth Of-  
ficer Boxhall of the Titanic was not  
resumed today. His testimony that a  
vessel was seen five miles from the  
Titanic, while it was sinking and  
sailed away without answering the  
Titanic's distress rockets, has caused  
a sensation for further investiga-  
tion by the committee.

## Crew Happy

While waiting a call to the wit-  
ness stand, the twenty-nine members  
of the Titanic's crew are enjoying  
the time of their lives. They are stop-  
ping at a tiptop hotel—many of

## Rock Island Mayor Indicted For Assault

ROCK ISLAND, Ill., April 23.—  
Mayor H. H. Schriver was in-  
dicted today by the grand jury  
called to investigate the recent  
rioting here which necessitated  
the presence of the entire Sixth  
regiment of the national guard  
for the restoring of order.  
Schriver is charged in the in-  
dictment with assault with in-  
tent to inflict great bodily harm  
on John Looney, publisher of the  
Rock Island News. Looney was a  
prisoner in the jail when he was  
attacked by Schriver, who was  
enraged because of a per-  
sonal attack upon him by  
Looney's paper. Political recrim-  
inations which followed led to  
the rioting in which three men  
were killed. Eight leading citi-  
zens furnished \$2,000 bond for  
Schriver. Several others have al-  
ready been indicted on charges  
of inciting riot.

## BODIES OF BUTT AND ASTOR FOUND

Belief that Two of Bodies  
Found by Cableship  
Are Those of Noted  
Men

## WILL LANG BODIES FRIDAY

Mackay Bennett Will Be in  
Halifax with 100  
Bodies Friday or  
Saturday

NEW YORK, April 23.—Officials  
of the White Star line here were try-  
ing hard today to secure verification  
of most of the names of victims  
whose bodies are on the steamer  
Mackay-Bennett. It was not be-  
lieved this would be possible until  
this afternoon. The wireless of the  
cable steamer is very weak and all  
messages have to be relayed. It was  
stated at the offices of the line here  
today that the Mackay-Bennett will  
probably put into Halifax as soon as  
she has taken on board a load of bod-  
ies. The Minia, the second vessel  
sent to recover bodies, should be on  
the scene late today and it is be-  
lieved the Mackay-Bennett will re-  
turn as soon as the Minia gets there.

Astor and Butt Found?  
There is a belief that among the  
garbled names received are two  
which may mean that Colonel Astor  
and Major Butt's bodies are on the  
steamer, but this is pure conjecture.  
Apparently the only prominent per-  
son whose body was recovered was  
George Widener of Philadelphia, it  
being accepted by all that the name  
George Widener in the list is certain-  
ly his.

The White Star line was officially  
notified at 9:15 a. m. today that fifty-  
seven bodies of the Titanic disas-  
ter had been recovered, of which  
forty-two have been identified. The  
company at that hour received an  
additional list of fifteen names of  
victims who were on the cable  
steamer Mackay-Bennett. That  
steamer, it was stated, will remain  
at the scene of the wreck until she  
has filled all of the 100 coffins taken  
from Halifax.

## Bodies in Friday

HALIFAX, N. S., April 23.—Pre-  
parations are being completed by  
the agents of the White Star line  
here for the reception of the ghastly  
cargo of the morgue ship Mackay-  
Bennett, when it reaches here with  
the bodies of the victims of the Ti-  
tanic disaster. This will probably  
not be until Friday and possibly not  
before Saturday as the bodies are  
reporting floating northwesterly in  
the gulf stream. All bodies will be  
held here for a second identification  
and will be sent where relatives or  
friends may request. Some at least  
of the bodies of the third class pas-  
sengers, will be buried here. No  
word of steamers passing Titanic  
wreckage was received here today.

## MINISTER HELD; BELIEVED INSANE

NEW YORK, April 23.—Rev.  
William S. Atkins, a noted mission-  
ary of Evans, Ky., who has been  
very active in missionary work in  
southern Kentucky for many years,  
was sent to Bellevue hospital from  
Center street police court today for  
observation regarding his sanity.  
Atkins came here last Saturday suf-  
fering from a nervous breakdown.  
He caused a near panic in Smith &  
McNeill's hotel late last night by  
firing a volley of pistol shots  
through a window.

## HINT FOR T. R.

NEW YORK, April 23.—What  
was construed here today as an in-  
vitation to Theodore Roosevelt to  
contribute to the Titanic disaster  
relief fund, was contained in Mayor  
Gaynor's reply to the Roosevelt mes-  
sage of sympathy. The mayor wrote:  
"Your message of sympathy duly  
received and much appreciated. I  
am glad to be able to inform you  
that the relief fund is still grow-  
ing."

State Fire Prevention association,  
which will arrive here tomorrow:  
P. W. Mahoney, Frank Kohn, Adam  
Kroner, Joseph Houska, Edward  
Neuman and Bert Smith.

The council reception committee  
will act in co-operation with the en-  
tertainment committee of the board  
of trade in the entertainment of the  
visiting members of the visiting com-  
mittee.

Secretary Arrives  
W. E. McCullough, secretary and  
treasurer of the Wisconsin State Fire  
Prevention association arrived here  
today and will await the arrival of  
the other members tomorrow morn-  
ing. It is thought the committee will  
number about thirty-five.

The visiting committee will split  
into four delegations, one of which  
will visit the schools, another the  
fire department and the two remain-  
ing delegations the business districts  
of the north and south sides.

The meeting will be held at the  
city hall at 8 o'clock tomorrow night  
when three members of the commit-  
tee and Mayor Dengler will speak  
on the prevention of fire. Members  
of the entertainment committee of  
the board of trade urge all teachers,  
superintendents, city officials, busi-  
ness men and all others interested in  
fire protection, to attend the meet-  
ing. The entertainment committee  
will act as guests at a dinner to be  
served at the Elks' club in honor of  
the visiting committee, following the  
meeting.

Mayor Urges Co-operation  
Mayor John Dengler today de-  
clared that the people of the United  
States should take more precautions  
against loss of life and property by  
fire. He asserts that statistics show  
that the loss by fire in the United  
States is more than twice as large  
as that of Germany in proportion to  
the amount of fire destructible prop-  
erty and twice as great as that of En-  
gland. He urges all to co-operate in  
preventing this useless waste which  
is caused to a great extent by care-  
lessness.

Mayor John Dengler today issued  
a proclamation setting Friday, May  
3, aside as fire prevention day in  
La Crosse in accordance with a simi-  
lar proclamation issued by Gov-  
ernor F. E. McGovern. The procla-  
mation is as follows:

## Proclamation to the Citizens of La Crosse

"In accordance with the procla-  
mation of Francis E. McGovern, gov-  
ernor of the state of Wisconsin, direct-  
ing that Friday the third of May,  
1912, be designated as Fire Pre-  
vention day as well as Arbor and Bird  
day, I, John Dengler, mayor of the  
city of La Crosse, do appoint and  
proclaim the said Friday, the third  
day of May, as Fire Prevention day  
as well as Arbor and Bird day in the  
city of La Crosse. I earnestly desire  
that all citizens and particularly the  
public officials recognize the said  
day in the spirit of the proclamation  
of the governor of Wisconsin. We  
recommend that the teachers in all  
the grades of public and private  
schools give instructions and plan  
exercises in harmony with the spirit  
of his proclamation. We further re-  
commend that public officers give  
special attention to fire prevention  
and fire escapes and that the people  
remove all unsightly and combusti-  
ble material from and about their  
homes and business places, and that  
they clean up and destroy all com-  
bustible material and rubbish never  
found on their premises, yards,  
alleys, cellars, entries, spaces under  
grade in sidewalks, basements, store  
rooms, attics and around sheds and  
barns.

## To Inspect Schools

"We further recommend that the  
schools, school grounds and public  
buildings be not overlooked as fires  
in the same are especially liable to  
endanger human lives.

"It is my desire that on this day  
the chief of the fire department and  
health commissioner make a trip of  
inspection about the city to all  
schools, public buildings and hotels  
and lodging houses, calling special  
attention to any dangerous material  
and have the same removed so that  
as far as possible all danger of fire  
and losses resulting from fire be  
avoided as far as possible.

"Let the people of the city of La  
Crosse enter into the spirit of this  
day and carry out its purposes.

"Signed at the city of La Crosse  
this 23rd day of April, A. D. 1912.  
"JOHN DENGLER,  
Mayor of the City of La Crosse."

## DEATH SUSPENS BOARD

CHICAGO, April 23.—There was  
no session of the board and egg  
board today. All business was sus-  
pended on account of the death of  
P. E. Purcell, a former president.

## Taft's Cousin Gives \$10,000 To Prohibs

CHICAGO, April 23.—An-  
nouncement was made today by  
the prohibition committee of the  
receipt of the biggest cam-  
paign contribution in the his-  
tory of the party. Rev. William  
Nicholson Taft, a cousin of  
President Taft, sent his check  
for \$10,000 to be used in fur-  
thering the prohibition campaign  
for president this year. Taft is a  
retired minister of San Diego,  
Cal. He formerly was a preach-  
er in Connecticut and made his  
money through an interest in  
the Taft Wholesale Drug com-  
pany of New York.

## LUDWIG COREN, PIONEER, DEAD

Was Prominent Business  
Man in Earlier Days of  
La Crosse; Born  
in Norway

## HE QUIT BUSINESS IN 1908

Started as Clerk in Clerk in  
Neuman and Contro-  
vitz' Dry Goods Es-  
tablishment

After an illness extending over  
several months Ludwig Coren, one  
of the most prominent early citizens  
of La Crosse, died at the Lutheran  
hospital of a complication of dis-  
eases, at 12 o'clock last night.

During his career in this city, Mr.  
Coren was the owner of the drygoods  
establishment now owned by the  
Scott-Rose company, a member of the  
board of education and a charter  
member of the Elks' club. He was  
also a member of several other so-  
cieties in La Crosse.

Mr. Coren was born in Christiania,  
Norway, September 14, 1846, where  
he resided with his parents until  
1866, when he came to the United  
States. He then resided at St. Louis  
for one year after which he spent a  
year at Edgerton, Wis., moving to  
La Crosse in 1868.

For a number of years he clerked  
in the drygoods establishment of  
Neuman & Controvitz, and later  
clerked for Guman Brothers. In  
1881 he established a drygoods store  
at 83 Ross street. He purchased a  
store on the site now occupied by  
the Fred Hill Shoe store in 1889  
and in 1895 moved into the then  
newly erected building which is now  
occupied by the Scott-Rose company.  
He retired from active business in  
1908.

Mr. Coren is survived by two  
daughters, Laura and Edna, both of  
this city. Funeral arrangements have  
not been completed.

## EXPLAINS INCOME TAX

STATE COMMISSIONER HAUGEN  
WILL ADDRESS MEETING  
AT COURT HOUSE  
THIS EVENING

L. P. Haugen, Madison, chairman  
of the State Tax Commission, ad-  
dressed the sixteen tax assessors at  
a meeting held at the county court  
house this afternoon on questions  
relating to assessing real estate and  
exemptions upon personal property  
caused by the new income tax.

Mr. Haugen will speak on the new  
income tax law at a general mass  
meeting of all interested to be held  
at the court house this evening. He  
will thoroughly explain the new law  
in detail and show the advantages  
offered by the new method of tax-  
ing.

Mr. Haugen's visit to La Crosse is  
due to the general confusion which  
was caused among tax payers in fill-  
ing out their income blanks. This  
will all be explained at tonight's  
meeting. Mr. Haugen is making a  
tour of the state and will speak at  
several other cities before he re-  
turns to Madison.

## M'GOVERN APPOINTS WOMAN ON BOARD

MADISON, Wis., April 23.—Gov-  
ernor McGovern today filled exist-  
ing vacancies on the state board of  
agriculture as follows:

Danford W. Larkin, Sturgeon  
Bay, to represent the ninth congres-  
sional district; George E. Kuntz,  
Milwaukee, fifth district; Henry E.  
Krueger, Beaver Dam, second dis-  
trict, and Mrs. Ada F. Howie, Elm  
Grove.

Mrs. Howie is the first woman  
ever appointed a member of the  
agricultural board in Wisconsin.

## STEAD'S SPIRIT CHATS

PITTSBURGH, April 23.—Decla-  
ring that W. T. Stead, editor of the  
London Review of Reviews, who  
went down with the Titanic Monday,  
"was happy but preparing to be with  
us," Mrs. Mary L. Feldman of Car-  
rick, Pa., today told the convention  
of the Pennsylvania State Spiritual-  
ists' association here that she had a  
chat with Stead's spirit yesterday  
morning.

## ROADS TO GRASP CHANGE OF PEACE

Regarded as Certain They  
Will Follow Engineers  
in Accepting Arbi-  
tration

## SAY ROADS WANT STRIKE

Claimed Railways Hope to  
Be Allowed Rate In-  
crease if Strike  
Is Called

NEW YORK, April 23.—That the  
railway managers had decided to  
accept the offer of governmental  
mediation to prevent a general strike  
of engineers was considered abso-  
lutely certain at their headquarters  
at 50 Church street today. One of  
the officials who refused to permit  
the use of his name said:

"There will be no strike. We will  
accept the offer and there will even-  
tually be an amicable agreement."

The committee promised a defini-  
te answer to Messrs. Neill and  
Knapp this afternoon. Both of the  
government officials said they ex-  
pected this answer to be favorable.

## Engineers Accept

The engineers sent a formal let-  
ter to Messrs. Neill and Knapp, ex-  
pressing great confidence in them  
and asserting that they considered  
their interests safe in the hands of  
the governmental representatives.  
They called their attention to the  
fact that any award that might be  
made should be as of today's and al-  
so insisted that the railroad presi-  
dents observe an armistice during  
the progress of the negotiations. The  
engineers cited the action of the  
railroads in trying to hire strike-  
breakers during the period of the re-  
cent negotiations and said that such  
action would not be tolerated in the  
present instance.

The railroads, it has been gener-  
ally believed, preferred a strike be-  
cause they believed only in that way  
would they be able to persuade the  
interstate commerce commission to  
let them increase freight rates. This  
was indicated when Jefferson Levy,  
who represents a rich New York dis-  
trict in congress, tried to persuade  
Grand Chief Stone to join with the  
railroads in an appeal to congress to  
enact legislation which would nul-  
lify the action of the commission in  
compelling the railroads to refrain  
from advancing rates.

## Can't Raise Pay

When the general managers went  
into session today several of them  
privately said they did not see how  
arbitration could help, because the  
roads simply could not pay any high-  
er wages. To do so, they said, would  
mean that interest on outstanding  
bonds would have to be defaulted.

## No Decision Announced

At 2:45 p. m. the managers were  
still in session and had not commu-  
nicated with the engineers or with  
Commissioner of Labor Charles P.  
Neill. Despite the lengthy session,  
officials of the road and the engi-  
neers expected the offer of mediation  
to be accepted before the conference  
adjourned.

After a lengthy conference of the  
managers Chairman J. C. Stuart left  
the meeting and hurried to the  
Grand Central station, where the  
railroad presidents' association was  
meeting. This led to the belief that  
the board of managers of the rail-  
roads, while possessing full powers,  
were contemplating some move which  
they were reluctant to make with-  
out the full approval of the presi-  
dents of the various lines interested.  
It was suggested that they might be  
considering a counter-proposition  
which would meet with little favor  
among the engineers, but nothing  
could be learned definitely.

## SPARTA SENATOR WINS HIS CASE

MADISON, Wis., April 23.—The  
state railroad commission today de-  
cided in favor of Senator Howard  
Teasdale of Sparta in his complaint  
against the Northwestern and Mil-  
waukee roads for more co-operation  
in the matter of switching arrange-  
ments and lower charges therefore  
for at Sparta.

## TO DISCUSS CONVENTION

BUFFALO, N. Y., April 23.—  
Chairman Norman E. Mack of the  
democratic national committee, has  
called a meeting of the committee  
on arrangements for the Baltimore  
convention, to be held at the Hotel  
Belvidere, Baltimore, on Saturday,  
April 27. Important matters pertain-  
ing to the convention will be consid-  
ered.

## ENGINEER DROWNED

EDMONTON, Alta., April 23.—  
Lawrence Chapman, an engineer in  
charge of a locating party on the  
route of the Edmonton, Dulvegan &  
British Columbia railway, was  
drowned in Athabasca river while at-  
tempting to cross the disintegrating

## Riots When Men Are Not Allowed To Smoke

ZION CITY, Ill., April 23.—  
A violation of the ordinance  
against smoking on the public  
streets has turned this city,  
founded by John Alexander  
Dowie, into the most bitter fac-  
tional warfare in its turbulent  
history. Riots and disorder  
prevail and many persons have  
been beaten. Sheriff Green at  
Waukegan has been notified to  
be prepared for a call for the  
militia to quell the militant  
churchmen.

"Zion City is sacred and we  
will not tolerate any smoking.  
Such acts desecrate our pure ci-  
ty," said Wilbur Voliva, head  
of the church of Zion, who re-  
cently announced that he is Eli-  
jah of Zion.

## DEATHROLL MAY INCREASE TO 100

Fifty-four Known to Be  
Dead and Many Fatalities  
Reported from Torna-  
do's Path

## PROPERTY LOSS \$1,500,000

Girls Carried 100 Feet in  
Air and Suddenly  
Dropped to Their  
Death

CHICAGO, April 23.—With fifty-  
four known dead and 200 persons  
seriously injured and \$1,500,000  
property damage, reports from the  
tornado swept districts of Indiana  
and Illinois were still coming in to-  
day. The death roll may be increased  
by from fifteen to twenty, as many  
of the injured are reported to be in  
a desperate condition and rescue  
parties are slowly sending in reports  
from isolated localities where they  
went to give assistance to farmers or  
to dig through the ruins of farm  
house homes in search of families.  
Scores of persons are in the hospital  
suffering from fractures of the skull  
by being hit by flying timbers.

The loss of life and property was  
heaviest in southern Illinois, but the  
wind which swept the northern section  
of this state and Indiana blew  
with deadly velocity.

## Dropped 100 Feet

William Bambill and his two  
daughters of Williamson county were  
killed under remarkable conditions.  
The man was crushed under the  
wreckage of his home, but his daugh-  
ters fled in time to escape the falling  
timbers.

Both were lifted into the  
air by the wind and carried up 100  
feet. Suddenly the wind abated and  
they dropped as though falling from  
an aeroplane. Both were instantly  
killed.

Thirteen persons dwelling in one  
house at Bush took refuge in an em-  
pty cistern when it became evident the  
house would be demolished. The  
house was blown down and fell on  
the cistern. The refugees were re-  
scued unhurt today after spending  
more than thirty-six hours in the  
subterranean retreat.

In many localities wires are still  
down and detailed reports of condi-  
tions were lacking. The villages of  
Bush, Willisville, Ill., and Morocco,  
Ind., were almost completely destr-  
oyed. Relief from surrounding towns  
was sent. The death roll follows:

## Storms Met

Reports from Bush say that two  
storms met there and almost the en-  
tire town lay in the tornado's vi-  
olent area. In other places a path from  
200 to 1,000 feet wide was swept by  
the wind and everything in its  
course razed.

## ARRESTED FOR CRIME FOURTEEN YEARS OLD

MILWAUKEE, April 23.—Well-  
dressed, debaucher and wearing a red  
carnation in his buttonhole, Major  
I. Slupecki, former real estate man  
of this city, walked into court to-  
day to face charges of embezzle-  
ment on a warrant issued fourteen  
years ago. Slupecki is alleged to  
have disappeared with several thou-  
sand dollars placed in his trust by  
Polish countrymen. He was recently  
located in Los Angeles and the an-  
cient warrant was served.

## SONES FUNERAL TOMORROW

The funeral of Mrs. Sophia Sones,  
who died yesterday morning, will be  
held from the residence, 1333 Cale-  
donia street, at ten o'clock tomor-  
row morning with Rev. Henry Fa-  
ville officiating at the services. In-  
terment will be made in Oak Grove  
cemetery.

## MRS. GAGE PLEADS GUILTY

WASHINGTON, April 23.—Pro-  
ceedings against Mrs. Gage in the  
police court ended today when the  
wealthy widow pleaded guilty to  
making threat of personal violence  
against a millionaire banker. She  
gave \$300 bonds to keep the peace.

## INSURANCE MAY BE MOTIVE

District Attorney Will Try  
to Show Recent Policy  
Cause of Weideman  
Murder

Testimony, relative to the finding  
of a blood stained dress in a stove in  
the attic of the Weideman home,  
which was introduced at the prelimi-  
nary hearing of Mrs. Charles Weide-  
man, charged with the murder of her  
sixty-seven year old husband, is  
thought to warrant further investi-  
gation and she will undoubtedly be  
held for the May term of the circuit  
court, according to District Attorney  
Markham, prosecuting attorney. The  
preliminary hearing which is being  
held at Independence, Wis., where  
the crime was committed, will prob-  
ably be completed late this after-  
noon.

With the court room packed to its  
full capacity, the gray haired wo-  
man sat moaning and crying  
throughout yesterday's entire pro-  
ceedings and when the hearing was  
resumed this morning, seemed to be  
on the verge of hysterics.

## Tells of Bloody Dress

Sam Cook, a blacksmith of Inde-  
pendence, who served on the inquest  
jury has proved the most important  
witness for the state, thus far intro-  
duced.

Cook, when on the stand, said that  
following the inquest he started an  
investigation about the house in the  
hopes of finding some clue to the  
mystery, and was rewarded by find-  
ing a dress and apron in an unused  
stove in the attic of the home. The  
dress and apron were both covered  
with blood and the sleeves were  
damp, indicating that an unsuccess-  
ful attempt had been made to re-  
move the blood stains from the  
dress. Slight tears in the dress are  
believed to have been caused by a  
struggle.

The witness also testified to find-

### THAW TO BE OUT OF ASYLUM SOON?

MATTEAWAN, N. Y., April 22.—That Harry K. Thaw will be out of Matteawan within ten days was declared to be certain by attaches of the state asylum for the criminal insane here late this afternoon. It was known that Thaw himself is very confident that the report of Dr. John W. Russell, superintendent of the asylum, which is to be made to Attorney General Carmody in connection with the proceedings now in progress in the supreme court to secure the release of Stanford White's slayer, will be in his favor.

### HAPPILY WEDDED FOR TWO YEARS; NOW LEARN THEY'RE BROTHER AND SISTER

John Ruch and wife.

After two years of happy married life, during which period two children were born to them, John Ruch, of Cincinnati, aged twenty-two years, and his wife, aged twenty-four years, who were formerly Helen Hoffman, of Sheridan, O., suddenly discovered that they are half brother and sister. Their relationship had been kept a secret. Ruch's father always having said that Helen Hoffman was an adopted daughter. When proof was brought that the young couple were half brother and sister, they immediately went to the divorce court and were freed. The mother was given the custody of the two little children, but the father agreed to contribute to their support.

## FIRE PREVENTION INTERESTS PUBLIC

Methods of Saving Property and Necessity Will Be Subject in the Schools May 1

MADISON, Wis., April 22.—How Arbor and Bird day and Fire Prevention day may help reduce the high cost of living is the lesson sought to be brought home to Wisconsin school children and others in the Arbor day annual issued by the state department of public instruction and compiled by O. S. Rice, state library clerk. The annual is for the first time joined with the fire prevention cause.

"If we knew the amount saveable annually by a wise forestry policy in reducing the cost of wood as a raw material in manufacturing industries," says the editor, "in lessening the cost of water power, and in lowering transportation charges on bulky commodities; if we knew the amount of annual loss to agriculture by insect pests which will be prevented by protection of bird life; and if we then were able to add to these amounts the two hundred million dollars of preventable fire loss, we should have a total annual saving of certainly not less than a billion dollars and possibly several times that amount. If this saving were equitably distributed, there would be a substantial reduction in the cost of living for all."

In the section of the annual devoted to fire prevention, Insurance Commissioner H. L. Ekern writes of "Fire Waste the Enemy of All," and State Fire Marshal T. M. Purtell of the work of his office. Facts and figures on all phases of the subject are appended. Mr. Purtell noted that Wisconsin's annual fire loss is about \$4,000,000, enough each year to run for the cost of the new state capital in one and one-half years. The fire loss due to incendiaries has grown less each year. In 1908 it was \$120,990. In 1909 it was \$56,755, and in 1910 it was reduced to \$35,415.

The cover design of the annual is the work of George M. Nieddeck of Milwaukee and is illustrative of the state's natural resources. William H. Kemper of the United States forest products laboratory, Madison, writes of "Economy in the Use of Wood." State Forester E. M. Griffith tells

## A HAPPY CHILD IN A FEW HOURS

When cross, sick, feverish, tongue coated or bilious, give delicious "Syrup of Figs"

Mother! look at the tongue! see if it is coated. If your child is listless, drooping, isn't sleeping well, is restless, doesn't eat heartily or is cross, irritable out of sorts with everybody, stomach sour, feverish, breath bad, has stomach-ache, diarrhoea, sore throat or is full of cold, it means the little ones' stomach, liver and bowels are full of waste and need a gentle, thorough cleansing at once.

Give a teaspoonful of Syrup of Figs, and in a few hours the foul, decaying constipated matter, undigested food and sour bile will gently move on and out of its little bowels without nausea, griping or weakness, and you will surely have a well and smiling child shortly.

With Syrup of Figs you are not drugging your children, being composed entirely of luscious figs, senna and aromatics it cannot be harmful, besides they dearly love its delicious taste.

Mothers should always keep Syrup of Figs handy. It is the only stomach, liver and bowel cleanser and regulator needed—a little given today will save a sick child tomorrow. Full directions for children of all ages and for grown-ups plainly printed on the package.

Ask your druggist for the full name, "Syrup of Figs and Elixir of Senna," prepared by the California Fig Syrup Co. This is the delicious, genuine old reliable. Refuse anything else offered.

how the public can assist in the prevention of fire, and of fire prevention in the state forest reserve. Julia A. Lapham of Oconomowoc writes of the life and work of her father, the late Increase A. Lapham. An article on "Protection of Wild Animal Life" is contributed by E. A. Cleary of Portage. Edible mushrooms are described by C. E. Brown, Madison. Frederick Cranefield gives a list of trees and shrubs suitable for planting on school grounds. Roland E. Kremers writes of the Wisconsin Audubon society.

## RAIL TERMINALS ARE IN RESTRAINT

WASHINGTON, April 22.—Railroad terminal associations of many large cities are amenable to the Sherman anti-trust law, the supreme court decided that in the government's "trust busting" suit against the Terminal Railroad association of St. Louis. The court declares such combinations for maintenance and operation of union stations are unreasonable in restraint of commerce.

## BOURNE LOSES STATE BY 6,000

PORTLAND, Ore., April 22.—The figures on last week's presidential primary are still incomplete, but a calculation made here shows: Republicans—Roosevelt, 25,391; La Follette, 20,794; Taft, 18,289. Democrats—Wilson, 6,387; Clark, 5,493; Harmon, 590. Ben Selling of Portland has been nominated for the senate by the republicans and Dr. Harry Lane won the democratic senatorial nomination. Selling's vote so far is 29,697, Bourne's 23,692.

## WHEN THEY WENT BACK HOME

Humorist Records Some Surprises That Attended the Occasion of Popular Celebration.

During a recent Old Home Week in an up-state village the following "never-will-amount-to-anthings" were in attendance:

John Wilson Clarke, who was always too lazy to do the chores, came up from New York in his big seven-passenger car. On account of pressing work he could stay but a few hours.

Ex-Gov. Silby Kirkwood, who was naturally thick-headed and half-baked in his youth, stopped over in his private car to see his old home.

Dr. Willis G. Dyer, one of the best-known surgeons in the country, called the town fool when a boy, dropped in and left enough money for a town library.

Miss Caroline Jensen Atwood, too stupid to learn in the old red school-house, now a popular authoress and playwright visited her relatives.

Charlie Druke, the spendthrift, shut up his Wall street office long enough to attend.

One of the most noticeable features of the whole celebration was the absence of the men and women who gave much promise of originality and worth during their youth.

Lack of memory in their old age accounts for the fact that not one of the old fogies present ever said anything but good of anybody, including the successful boys present.—Don Cameron Shafer in Judge.

### Wind and Fog in San Francisco.

On some afternoons the velocity of the wind in San Francisco rises with almost clocklike regularity to about 22 miles an hour, and a solid wall of fog, averaging 1,500 feet in height, comes through the Golden Gate, causing a fall in temperature to about that of the sea—namely, 55 degrees Fahrenheit.

## HUNT TRAIN ROBBERS

POSSES OUT AFTER TWO BANDITS WHO HELD UP ROCK ISLAND LIMITED NEAR ROCK ISLAND

ROCK ISLAND, Ill., April 22.—Posses of sheriffs deputies and railroad detectives here are scouring the country between here and Sheffield for two bandits who early this morning lined up the passengers of a Pullman car on the Rock Island westbound Golden State limited train and robbed them of all their valuables. The robbers boarded the train at Bureau, just before midnight, and forced the porter of the rear Pullman at the point of their revolvers to awaken all the passengers. The passengers were lined up in the aisle and while one of the bandits covered them with his revolver, the other took up the "collection" which totaled \$661, half a dozen watches, some diamonds and other jewelry. The robbers ordered the porter to signal the engineer to slow down and they dropped off the train in the darkness five miles east of Sheffield.

## 29 INDICTED FOR ROCK ISLAND RIOTS

ROCK ISLAND, Ill., April 22.—Charged with inciting to riot, Edward Gardner, who made several speeches during the recent trouble, and Justice of the Peace Wells, who contributed several articles to the weekly publication which is charged with having inspired the riots, were arrested today.

Twenty-nine indictments were returned by the special grand jury, the names of those indicted being withheld until arrests are made. Of the twenty-nine it is known that twenty-three are against owners of property rented for disorderly houses.

## ENGLISH HOUSE TO PROBE THE WRECK

LONDON, April 22.—Declaring the statement of Sidney Buxton, the president of the British board of trade, regarding the Titanic disaster to be "extremely unsatisfactory," Will Crooks, the laborite leader, demanded and obtained permission for a full debate of the entire tragedy, its causes and circumstances to begin at 8:15 tonight in the house of commons.

### Prosaic "Ghost."

Thinking they had seen a "ghost," a number of Dundee (Scotland) townsfolk, while walking through the cemetery recently, took to their heels and summoned the nearest gatekeeper. The "vision" which had aroused their alarm—that of a figure in scanty attire standing behind a gravestone, had vanished when they returned with reinforcements, and all there was to be seen was a large piece of red flannel. It afterwards transpired that the owner, being greatly irritated by the flannel, which was next the skin, had gone to the cemetery with the idea of getting rid of it, which he could not do without shedding his garments.

## FRENCH PRESS FLAYS ISMAY

Gil Blas Scorches Ismay, the Saved, for Conduct on the Wrecked Titanic

PARIS, April 22.—In a leading editorial entitled "Among The Men," the newspaper Gil Blas flays J. Bruce Ismay for his conduct in the Titanic disaster.

"Ismay is a conqueror," said the editorial, "perhaps no one will think of offering a statue to him, but he should be placed on a pedestal high enough so that all humanity might stand aghast and contemplate his conduct."

"He was master of the Titanic, and he pushed her captain to send the vessel across the sea at full speed. At the moment of the disaster he showed he was master by flinging aside those who preceded him and taking to the boats. Several men, it has been reported, were shot trying to enter these boats. These were but immigrants, poor, unknown, without honor. No one thought it would be equally justifiable to send a ball at Ismay, phlegmatically seated in a lifeboat."

"Ismay is a man of strong resolutions. He resolved to live and he lived. He is therefore a hero—after a fashion. John Jacob Astor was a hero of a different brand. Despite his millions he humbly sacrificed himself. Much will be pardoned Ismay because he so lived himself."

"He is a modern hero who embarked in his boat, thrusting aside the antiquated chivalry that dictated that others should be saved. What lamentable sentiment these American barbarians have to lay hands upon this idol—to dislodge this god from his boat."

## RUSHFORD, MINN.

Last Sunday morning, for the first time in almost two years, this city was startled by the ringing of the fire-bell and excited citizens filled the leading streets to Brooklyn, towards which the fire-ladders were also rushing, to find that the kitchen of W. W. Beers' residence was well ablaze, the flames having started from a defective chimney. By rapid work and concentrated efforts the firemen soon had the flames under control and the damage confined to the kitchen alone. The alarm was given by one of our city teachers, who, from her room upstairs, discovered the blaze and sent in a timely warning. Rushford has certainly been very fortunate for a long time, as no fires have broken out since the house of Will Arthur was burned almost two years ago. We have a most excellent fire-company and efficient water-supply to thank for our good luck in this respect, and besides,

### SUMMITS TEAM A GLASSY BUNCH

Fast Aggregation of Ball Players Prepares for the Season; Good Material in Lineup

According to the present indications the Summit Stove company will have a baseball team this season which will be one of the fastest aggregations in the city for they have a bunch of players who will be able to give the best of teams a good battle. The team will be faster and stronger than last year's nine as new men have been signed up to give added strength to the team.

The recruits were put through two hours of practice Sunday afternoon when all the players showed up in fine style. A good team can be picked out of the material on hand and a strong lineup will be presented when the Summits start on their schedule.

Manager Lloyd Anderson, 2016 Kane street, is negotiating for the services of a crack twirler, whose name is withheld, and he is confident that he will land him. A large number of men have been signed to take care of the other positions and a lively contest for regular places on the team will ensue. A practice game will be played next Sunday to get a line on the ability of the men and to help in choosing a regular team.

Following are the players who have been signed to play with the Summits: Otto Wuest, captain, Charles Beranek, Bert Hill, F. Corbett, Edward Horn, Charles Formanek, George Bettin, Mike Klein, Joe Vidana and L. Anderson.

### ROOSEVELT HAS LEAD ON TAFT

OMAHA, Neb., April 23.—Returns from 1,100 out of 1,800 precincts in Nebraska give Roosevelt 34,503; Taft 11,788, and La Follette, 11,513. The same precincts give Clark 14,729; Harmon, 9,945, and Wilson 9,596. These figures include Omaha and Lincoln. Congressman George Norris will have nearly 5,000 majority over Senator Norris Brown for the republican senatorial nomination, figures from a little over half the state giving Norris 25,642 and Brown 22,701. Ex-Governor Shallenberger, in about half the state, has 14,000 votes for senator. Both his opponents have only 11,000.

President Beach said the laundry industry of Minnesota and of North and South Dakota amounted to between ten and eleven million dollars annually.

Miss Anadell Niece of Bloomington, Ill., was a brief caller here yesterday.

Miss Vira Merwin, 814 Gillette street, will leave soon for Trempealeau, for a few days' visit with relatives and friends.

## SAYS SOCIAL EVIL IS FAULT OF GOOD

Miss Jane Addams Declares Test of Religion Is Attitude Toward Prostitution

### CAUSES POLITICAL CROOKS

Miss Addams Says Neglect of Social Evil Is Basis of Governmental Corruption

NEW YORK, April 23.—Society's attitude toward prostitution was advanced as the supreme test of Christian religion by Jane Addams, the Hull House philanthropist, in a sensational speech on "The Church and the Social Evil," before the Men and Religion Forward Congress here today.

"The supreme religious test of our social order," said Miss Addams, "is the hideous commerce of prostitution, and the sorry results of that test are registered in the hypocrisy and hardness of heart of the average good citizen toward the so-called fallen women. May we not claim that in consequence of this irreligious attitude prostitution today remains a hard, unresolved mass in the midst of so-called Christian civilization, until it has come to be called a vice which cannot be eradicated, a sin which cannot be forgiven, a social disease that cannot be cured."

**Causes Corruption**  
The policy of treating the social evil as a matter for contemptuous indifference, Miss Addams declared, had formed the groundwork for political corruption.

"Prostitution protected by a thick hedge of secrecy," she continued, "imperceptibly renewing itself through changing administrations, is the one fixed point of maladministration, the unbreakable bank to which the corrupt politician may repair when in need of funds. The corruption spreads until the brothel, the saloon, and the gambling den are the trio literally at the base of the real administration of our cities. Certainly the harlot has been avenged upon the city which despises her. The men who consider her a legitimate source of revenue, in a thousand ways fleece the decent taxpayers who refuse to acknowledge her existence, and she abides through one administration after another, to the confusion and frustration of all movements for civic reform."

After urging a more charitable, christian attitude toward fallen women, Miss Addams said:

"The success of this business, which in Chicago pays its promoters \$15,000,000 a year, is founded on the hypocrisy and self-righteousness of the decent citizen and it continues to capture young girls, to debauch young men, to spread disease and to corrupt city politics, because good men do not consider it a part of their religious obligation to face it openly and to undertake its abolition."

Miss Addams spoke to an audience made up almost entirely of men.

## LOOKED LIKE WAX

A Symptom of Lack of Blood That Is Evident to Every One.

Pale, sallow complexion, ears that seem almost transparent, lips almost white—these are outward signs of anemia, or lack of blood.

The patient probably has a slight cough, complains of being easily tired and is troubled with palpitation of the heart.

There is one remedy for this condition—more blood. Blood is made from the food we eat but in this condition it is not made as fast as needed. Dr. Williams' Pink Pills double the blood-making value of the food and are therefore a powerful agency in building up the blood.

Mrs. R. L. Harrod, of 413 South Ohio avenue, Muncie, Ind., recommends Dr. Williams' Pink Pills because they restored her to health when all other medicines failed. "A few years ago," she says, "when I was living at Bellefontaine, Ohio, I was suffering with anemia. I was pale and had a wax-like color and was so short of breath that I couldn't go up stairs without stopping to rest or couldn't stand the least little exertion. I was run down and very thin, didn't feel like eating and didn't want to talk to or see anyone. My heart would palpitate so that I would feel weak. I couldn't sleep well, coughed constantly and had pains under my shoulders. I was so miserable that I wanted to die."

"The doctors told me that my blood was turning into water, and that I was going into a decline and asked me if there had been any consumption in my family. They didn't help me at all and I had read so much about Dr. Williams' Pink Pills that I decided to try a box of them. They helped me so much that I gave up all other medicine and pinned my faith to them alone. I took several boxes and in a few weeks was completely restored to health. I became strong and healthy and was able to work again. I know Dr. Williams' Pink Pills saved my life."

Dr. Williams' Pink Pills have also cured rheumatism, after-effects of the grip and fevers and such nervous diseases as neuralgia, nervous headaches, dizziness, St. Vitus' dance and even partial paralysis and locomotor ataxia.

A booklet of valuable information, entitled "Building Up the Blood," will be sent free to any person interested.

Dr. Williams' Pink Pills are sold by all druggists or will be sent, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50 by the Dr. Williams' Medicine Company, Schenectady, N. Y.

## ICE PREVENTED RUSH TO RESCUE

Birma Reports She Was Near Disaster, but Could Not Get to the Scene in Time

ROTTERDAM, April 23.—That the steamer Birma of the Russian line plying between New York, this port and Libau, was only 100 miles from the Titanic when she struck the iceberg was unable to sail directly to the rescue, because of intervening ice fields was the assertion made by her captain in a report received today.

The Birma received the appeal of Wireless Operator Phillips for aid, but when her captain tried to steer directly for the scene he found progress cut off by a series of immense icebergs. He had to sail almost in a half circle and did not reach the actual scene at any time, as en route he picked up a message from the Carpathia saying there was no use continuing, that the Titanic had gone forever, and that the Carpathia had acted as the ambulance ship. The Birma reports no wreckage encountered. The ice encountered, her commander asserts, was the worst he ever saw.

## JUDGE NOT ALLOWED TO ACCEPT FEES

MADISON, Wis., April 23.—(Special.)—For a county judge to accept fees for performing duties of his office when he receives a salary constitutes malfeasance in office and makes the surety company upon his bond liable for recovery by the county is the gist of a decision by the Supreme court today, in a case between Judge John H. Dawley and his surety company, and Forest county. The judge received \$1,000 in fees for his work outside of probate matters in addition to his salary and the county sued the bonding company to recover. The Supreme court upheld the lower court.

## CITY MUST PAY FOR TELEPHONE

MADISON, Wis., April 23.—(Special.)—That a city cannot force a telephone company to give it free service, although a section of the ordinance granting the franchise provides for free municipal telephones, was the decision handed down today by the supreme court on a case appealed to the supreme court by the city of Kenosha. The state railway commission has ruled against free city service, and the city paid the rate charged under protest. The lower court upheld the company in its charges, a view taken also by the supreme court.

## SCHOOL CONTRACTS AWARDED.

MADISON, Wis., April 23.—The state board of normal regents has awarded the contracts for the erection of an addition to the Superior normal school to the following firms: E. Sedlachek, general construction, \$47,810; American Heating Co., plumbing, \$5,136; Stack Bros., heating, \$9,547; total, \$62,493. The contract for the electric wiring was not awarded. The board also bought twenty-two lots, to be added to the normal school grounds, for \$8,400.

## SIX OF ALLEN GANG ON TRIAL

Captured Members of Outlaw Band Are Arraigned in Court They Made a Shambles

HILLSVILLE, Va., April 23.—In the court room where their bullets snuffed out five lives, six members of the Allen gang were formally arraigned for murder here today.

The legal battle over a change of venue is expected to be disposed of quickly. The general impression here is that Floyd Allen will be tried first, unless the commonwealth decides to try all six cases at once.

The prisoners—Floyd Allen, his two sons, Claude and Victor, and his nephews Sidna Edwards, Friel Allen and Byrd Marion—were taken into court heavily guarded by detectives. At all entrances to the court room deputies carefully searched every person desiring admittance.

Floyd Allen appeared to be the only one of the prisoners who has suffered from confinement. His wounded and broken leg was still bandaged and in a cast and he had to be carried to his seat in the dock. To a large extent he has lost the air of bravado which he assumed immediately after the shooting on March 14.

A special venire of fifty was in attendance today. The defense plans to shift all responsibility for the court room murders on Sidna Allen and Wesley Edwards, the only two members of the Allen gang still at liberty.

## CUNARDERS TO BE ON SAFE SIDE

NEW YORK, April 23.—Immediate action to safeguard the lives of their passengers was taken by the Cunard line upon learning of the Titanic disaster. The chairman of the board of the company, at sea on the Mauretania, sent the following wireless to the company's offices in Liverpool on Wednesday, according to a statement given out at the company's offices here yesterday:

"Presume arrangements already made enforce extreme southern travel. Instruct all Atlantic captains avoid all risks in connection with whatever loss of time or distance involved. Make plans for fitting all steamers with life rafts or collapsible boats to full numbers carried. Also wish question fitting searchlights to be carefully considered."

## ASSERT CAPTAIN WAS AT DINNER

MILWAUKEE, Wis., April 23.—Confirming statements already made, Mrs. E. G. Crosby, a Titanic survivor, and wife of Captain Crosby, the veteran head of the Crosby Transportation company, who was lost in the disaster, today declared Captain Smith was the host at a hilarious dinner party being given in honor of J. Bruce Ismay when the Titanic struck the iceberg.

### BLAME PUBLIC FOR BIG WRECK

Rev. W. E. Johnson Says  
People Should Demand  
Fire Drills in All  
Schools

The traveling public and not J. B. Ismay should bear the brunt of the indignation caused by the sinking of the Titanic and the subsequent destruction of 1,635 lives, according to Rev. W. E. Johnson of the Christ Episcopal church, who spoke of the president of the White Star line Sunday.

"The demand of the public for more speed is the indirect cause of the disaster and the officers of the company who merely comply with the demands of the people are not to blame," said the clergyman. "The public should demand safeguards instead of being reckless with life to gain lesser ends," he continued.

### SENATE O. K.'S APPEAL

WASHINGTON, April 23.—With-out a roll call the senate yesterday passed the Cummins bill instructing Attorney General Wickersham to appeal from the action of the superior court in its disintegration of the Tobacco trust. To become law, the bill must be passed by the house.

A sympathetic man usually sympathized with himself more than with others.

## TASTE, SMELL AND HEARING RESTORED

A Simple, Harmless Remedy Quickly Relieves Catarrhal Deafness.

The thousands who suffer the miseries of catarrh, and claim they have never found a cure, can get instant relief by simply anointing the nostrils with Ely's Cream Balm.

Unlike internal medicines which upset the stomach, or strong snuffs which only aggravate the trouble, this cleansing, healing, antiseptic balm instantly reaches the seat of the trouble, stops the nasty discharge, clears the nose, head and throat, brings back the sense of taste, smell and hearing. More than this, it strengthens the weakened, diseased tissues, thus protecting you against a return of the trouble.

Nasal catarrh is an inflammation of the membrane lining the air passages, and cannot be reached with mixtures taken into the stomach or with snuffs and powders which only cause additional irritation. Don't waste time on them. Get a fifty cent bottle of Ely's Cream Balm from your druggist, and after using it for a day you will wish you had tried it sooner.

## PUT UP TO TAFT TO END STRIKE

System Federation on Harriman Lines and I. C. Threaten to Involve All Western Roads

KANSAS CITY, Mo., April 23.—

President Taft was today formally asked to take a hand in the shopmen's strike against the Harriman lines and the Illinois Central railroad. The appeal for federal intervention was made by the federation of federations recently organized here, which is composed of all the shop employees of all railroads in the country.

The new federation declares that unless an honorable settlement of these strikes, which have been in progress many months can be secured immediately steps will be taken to extend the strike to all western roads.

The president's attention is called in a letter to alleged non-enforcement of the safety appliance law by the railroads, the loss to business and the delay to the United States mails. All these conditions the letter alleges, are due to the strike. The appeal is signed by the "Committee of International Presidents of the Shopmen's Unions which have joined in the systems federation."

### Difference in Icebergs.

No two icebergs appear to be exactly alike in size and shape. Some look, for all the world, like Arab's tents as they glide along, and others like cliffs, castles, cathedrals, yachts, and occasionally they resemble some well known animal. Some of the pinnacles of a large berg rise nearly 1,000 feet above the water, while the base may occupy an area of ten or twelve acres. Seen through a powerful glass, one may detect waterfalls upon these islands of ice, and all kinds of arctic birds, and perhaps a few seals.

Then the colors are almost beyond description. The stately pinnacles glisten in the sun like powdered glass. At times the berg is pure white, at others it looks greenish.—From Harold J. Shepherson's "Icebergs" in St. Nicholas.

## NEWBRO'S HERPICIDE

### Fools the Calendar

Don't look older than you are. It is just as easy to look younger. While lack of hair or poor hair is not always an indication of age, it is frequently accepted as such.

A person well advanced in years possessing a good head of hair is always spoken of as "well preserved."

Everyone can retain beautiful, luxuriant hair if they make the effort. In almost every instance poor hair or the loss of hair may be traced to the activity of the dandruff germ. Newbro's Herpicide kills this germ and puts the scalp in a perfectly healthy condition. With the destruction of the dandruff germ the hair no longer drops out. The itching of the scalp stops almost at once.

Newbro's Herpicide is the original remedy for which there are many substitutes, preparations claimed to be "just as good." You don't have to accept a substitute. Insist upon having genuine Herpicide.

For sale by all druggists. Applications obtained at good barber shops. One dollar size bottles are always guaranteed. Send 10c in postage to The Herpicide Co., Dept. R., Detroit, Mich., for sample and book. Hoerschler Bros., special agents.

## COMPOUNDING WITH TESTED DRUGS

When we go into the open market to buy drugs to be used in compounding physicians' prescriptions, we exert every precaution and care in order to be sure that they shall be of the highest standard. We not only buy them from the most reputable manufacturers, but in addition we test them in our laboratory. This double precaution assures you of the right quality of drugs, and when we guarantee quality and strength, we know exactly what we are talking about. You take no chances when you have your prescriptions compounded here. This precautionary measure costs nothing extra. "It's our way of doing business."

them enjoying hotel life of that kind for the first time in their lives.

"Rubber-neck" cars are adding to the sailormen's enjoyment. They are sightseeing every minute while waiting for their "watch" before the committee. They have "shore leave" to enjoy the capital at the expense of the committee and the White Star line. The tactless Englishmen are impervious to reporters' attentions, however. They are in tow of the petty officers and are sphynxlike in their refusal to discuss their part in the Titanic tragedy.

### Boats Not Full

Pittman said no officers were in lifeboat No. 7, when his No. 5 made fast to the other to keep it from floating away and being lost. He thought there were 30 or 40 passengers in No. 7 boat.

"But there was room for more people in No. 7?" Senator Smith queried.

"Yes, a few more, at least," Pittman replied. "They all could carry sixty people. These two boats would have had more, but there were no women around at the time. There were men, but I thought I had sufficient in my boat."

Pittman admitted he had never seen any lifeboat carry sixty persons. "As a matter of fact, don't you know your boat would have held more people?" Smith asked.

"Yes, I know it would. I told my men to try to pick up a few more from the water, but many of the passengers in the boat begged me not to. They were afraid we would be capsized. I turned my boat around to go in the direction in which the cries came, but when I saw the passengers believed the swimmers would swamp us, I did not go back toward the spot where the Titanic sunk. We took out our oars and drifted about for an hour. Gradually the cries became fewer and finally ceased."

### No Effort to Rescue

Upon being pressed for more details as to the efforts he made to rescue persons from the water, Pittman said: "I would rather you would leave that out."

"I know you would," said Senator Smith, "but we must know about this."

"That was all the effort I made to rescue people from the water," Pittman replied almost choking.

### Boat Held Off

"Sunday night we saw one white light about 1:30 on the westward horizon," said Pittman, describing the boat Fourth Officer Boxhall described yesterday. "It was just a white light, it might have been one of our own lifeboats. We were all in the water in the boats then."

Senator Perkins took up the questioning at this point and brought out the fact that the lifeboats could not possibly have taken off more than 1,200 people had they been filled to capacity.

### Half Enough Boats

"Then she had only about half enough life appliances for the people aboard?" a sked Senator Perkins.

"Yes, sir; but she complied with all British requirements," Pittman insisted.

### Lookout Reported Ice

Pittman was temporarily excused and F. F. Fleet of Southampton, lookout in the crow's nest of the Titanic, took the stand. Fleet appeared unable to understand the questions of the committee. He was ill at ease and evidently very angry over being detained as a witness.

"I was on the lookout in the crow's nest of the Titanic at the time of the collision," Fleet testified. He said he began watch at 10 p. m. on that fateful Sabbath night in company with another member of the crew.

"The other watch told us to keep a sharp lookout for small ice," said Fleet. "Just after seven bells (11:30 p. m.) we reported an iceberg ahead."

Fleet was asked to indicate how much time elapsed between when he reported the iceberg ahead and when the crash occurred, but could not. He would not say whether it was five minutes or an hour.

"This iceberg appeared very small when I first saw it," he added. "About as large as these two tables, it got larger as we approached, when we got alongside it was a little bit higher than the forecastle head."

"How high is the forecastle head?" Smith asked.

"About fifty or sixty feet above the water."

### Not Much Shock

"We struck it on the starboard bow, just before the forecastle, about twenty feet from the stem," Fleet said.

"There was a soft, grinding noise

## MILK TESTER TO RAISE STANDARDS

Health Department Has a New Way of Finding Impurities in the Milk

### SAMPLES OPEN TO PUBLIC

Buyer Can Find Out Which Dairies Have Best Methods of Handling Food

It is a simple little machine. Looks something like a thermos bottle. It is made of copper and will hold about a quart, but it may mean much to the citizens of La Crosse. It will filter a quart of milk in about half a minute and if there are any impurities in the milk a little disk of white cotton registers the quantity and quality of the dirt in a manner so plain that even the layman can see for himself just how much danger there is in impure milk.

The machine was added to the equipment of the health department and given its first tryout by Health Commissioner J. M. Furman today. Dr. Furman took it with him on a trip of inspection this morning. He stopped several dairy wagons and tested the milk before the eyes of the driver. In all he got ten samples. The ten samples show about ten varying shades of impurity. Each sample was marked so as to show what dairy it came from. One or two were so white that to the naked eye the dirt was invisible, but the others proved conclusively that there is need of better methods of handling milk in some of the dairies. One sample especially showed an ominous grey.

"The milk tester," said Dr. Furman today, "will enable us to tell at a glance which dairies are selling impure milk. It will also mean a great saving of time in this office. It enables us to find out at once which dairies are in need of inspection and they will be attended to at once."

"The samples that we collect will be marked to show what dairies they come from, and open for inspection to the public in our laboratories, and if anyone suspects that the milk he is buying is not pure he can find out here. It will also enable the public to find out which dairies have the most sanitary methods of handling milk. I expect that in a short time it will mean the raising of the standards of several milk dealers in this city."

—not much shock. I thought it was a narrow shave. Some ice broke on the forecastle deck and some on the weather deck. Lee, my mate in the crow's nest, also saw the ice ahead." Fleet continued. "We both sighted it together. The relief mate and other lookouts told us to look carefully."

"Do you know what time it was?" the seaman was asked.

"No, I have no idea, except that I went to lookout at 10 o'clock."

### No Glasses

"We had no spyglasses—only our own eyes," said Fleet, declaring when on the Oceanic he had glasses on the lookout.

"We asked for glasses at Southampton," the seaman testified. "Two other lookouts told us to ask Second Officer Lightoller. We had a pair from Belfast to Southampton, but none from there on. We were told there were none for us."

"If we had had glasses we might have seen the berg sooner—quick enough to get out of the way."

## REHEARING IS DENIED

SUPREME COURT RULES PIZZO CASE MUST GO TO THE CIRCUIT COURT; DIETZ CASE UNDECIDED

MADISON, Wis., April 23. — In the case of Ferdinand Pizzo as the administrator of the estate of Lorenzo Pizzo, deceased, against the On Sing company and Wieman & Muensch company of Milwaukee, an action growing out of a Fourth of July accident two years ago which proved fatal to the Pizzo boy, the supreme court, this morning denied the motion for a rehearing. This means that the case will be tried on its merits in the circuit court of Dane county next fall unless it is otherwise settled before that time.

It is alleged that on the fourth of July two years ago that the Pizzo boy bought a toy cap pistol at the store of the On Sing company. The cap exploded in the boy's hand and tetanus set in. The little Fourth of July victim lingered for several days and died. His father brought action against the retailer and the wholesaler and now the case is to be threshed out in the circuit court.

No decisions were handed down in the Dietz case or the case involving home rule for cities. Shortly after court convened a large number of telephone calls were received from persons who were anxious to know whether the court decided for or against a new trial for Dietz.

Harmony Camp R. N. A. will discontinue their card parties for this season.

## OUTCASTS SIGN CHICAGO CATCHER

Boyle, Backstop on One of the City League Clubs, Reports to Manager Bond

Catcher Boyle, a big backstop who did great work in the Chicago City league last year, arrived in the city last night and reported to Manager Bond of the Outcasts. He will try out for the local team this year. Boyle is the first of the out of town candidates for the team to reach La Crosse. He is five feet, ten inches, in height, is just the right build for a catcher and his record shows that he is a capable man back of the bat.

Manager Bond now has twenty-four men signed up to try out for the team this year and out of this list a great aggregation should be picked for some good players have been secured. Transportation has been sent to the players and they will begin to arrive in the city tomorrow. The first practice of the season will be held Thursday morning, when Bond will get his men together at League park to start training.

C. H. Rowland of the Dubuque, Iowa, club wired the management of the Outcasts today offering them a hard hitting outfielder and an infielder who also has a good record. Negotiations for the purchase of these men will be entered into. The names of the men were not given by the Dubuque club.

President Elliott has called a league meeting for Winona at 2 o'clock Sunday afternoon at the Arlington club. At this time the schedule as drawn up will be presented for adoption. President Elliott expects to close a contract with Spaulding which will make the Spaulding ball the official one for the Minny league and he will report on this at the meeting. President John A. Miller of the local club will introduce a resolution that all clubs in the circuit install turnstiles at their parks and this will also be brought up before the directors. In the past La Crosse has been the only city where turnstiles have been used but it is thought that all parks should be equipped with them.

## C. M. HAYS MAN OF VISION AND POWER

Charles Melville Hays.

One of the most striking figures in the whole realm of Canada's national life was Charles Melville Hays, president of the Grand Trunk Railway system from February 1, 1911 until his death on the ill-fated Titanic. Born on an Illinois farm in 1856, a plain American citizen, Hays began at the bottom and rose to a commanding position in the railway world. He saved the Grand Trunk from bankruptcy. Since Hays was made general manager of the road in 1896 the Grand Trunk has spent millions in improvements and extension. Hays' hold on the stockholders and directors was amazing.

## GOES OVER THE ARCHBOLD CASE

Wickersham Today Examines Charges Made Against Judge in Coal Deal

WASHINGTON, April 23.—Attorney General Wickersham is today going over the charges lodged against Judge Robert W. Archbald of the commerce court, which progressives in the house may attempt to make the basis for impeachment proceedings. It was said today that the attorney general will investigate the matter and report to the house his findings.

The charges are in connection with an alleged agreement for the sale of coal or waste coal piles now the property of the Erie railroad. It was admitted that department of justice agents had been at Scranton, Pa., investigating the allegations.

Progressive members of the house showed strong interest in the Archbald charges. As a result of informal charges among them word was passed around that in all probability a resolution calling upon the attorney general to communicate to the house all information in his possession, bearing on the case would be introduced in today's session.

## IMITATES BABY WELL

FEATURE OF MAJESTIC BILL IS GIRL WHO IMPERSONATES CHARACTER OF A CHILD

Babe Mason and Edith LeClaire are the two young ladies topping the bill at the Majestic this week. They have a singing and dancing act in a Dutch setting that outclasses anything of the sort familiar to local patrons. Babe Mason, especially, made a hit with her impersonations of child life, although one particular young man in the audience was rather embarrassed by her persistent attentions.

The four musical Avollos are experts on the xylophone. They play many different selections of popular and classical music in excellent style, and their work met with enthusiastic approval yesterday.

The Imperial Quartet is a company of young men with marvelous voices properly handled. They are chiefly remarkable for the voice of the "coon" comedy man. His voice is as rich and deep as a pipe-organ tone, and as voluminous as a calliope. It is some act.

Emmett's dogs delight the children, old and young in the audience. The act illustrates the degree to which the canine mind is capable of assimilating training, and the dogs, one in particular, show really wonderful intelligence.

Miss May Curtis is a singing comedian of class, who made a special hit rendering rag-time selections.

## HORSE STEALER IS GRANTED A PARDON

MADISON, Wis., April 23.—Governor McGovern this morning pardoned Fred Dahlman of Waukesha county. He was sentenced in 1910 for five years for horse stealing. The governor has disposed of the rest of the cases on the present pardon calendar and announced the following: Fred Dahlman, Waukesha county, sentenced in 1910 for five years for horse stealing. Absolute pardon.

Edwin Elvehun, Stoughton, sentenced to the Waukesha state industrial school for his minority, conditional pardon.

William Crawford, second degree murder, sentenced from Milwaukee county in 1899 to twenty-five years, pardon denied and papers ordered to the state board of control, Crawford being eligible for parole.

Paul Klingbeil, assault and robbery, sentenced from Marathon county in 1910 to two years, pardon denied. Prisoner is on parole.

Robert Zimmerman, manslaughter, Lincoln county, 1909, five years, pardon denied.

Loren Corner, statutory offense, Burnett county, 1908, ten years, pardon denied.

John Hart, Crawford county, 1910, six years, pardon denied.

Earl Richmond, robbery, 1910, two years, pardon denied. Richmond is on parole.

## SONS OF VETERANS IN FIRST MEETING

Robert Hughes Camp, Sons of Veterans, held its first meeting in the G. A. R. headquarters in the court house Monday evening. The camp, which was organized by Felix A. Kramer of Madison Friday night, elected a committee to work with the committee of the G. A. R. in making plans for the celebration of Memorial Day. There are about fifty charter members in the new local organization and it is expected that many more will join in the near future.

Any descendant of an honorably discharged soldier in the civil war is eligible to membership. Monday was selected as meeting night.

The following officers were elected and installed at the meeting on Friday evening:

Commander, W. C. Winter; senior vice commander, C. A. Wolford; junior vice commander, J. G. Moore; Secretary, W. F. Russell; Treasurer, J. M. Holley, Jr.; patriotic instructor, Frank Winter; chaplain, J. H. Schneller; color bearer, Joseph Wolford; inner guard, Bert Vincent; outer guard, M. A. Bacon; camp council, George Hauser, F. O. Chamberlain and Andrew Sauer.

## MUTINIOUS MOORS SLAY THE FRENCH

Soldiers of the Republic Slain by Moroccans Who Protest Against New Regulations

### NO NEWS; KEY MEN DEAD

Telegraphers Are Killed and News Is Held Back for Several Days

FEZ, Thursday, April 18. (delayed).—The revolt of the populace and the Moorish soldiery began at midday yesterday, after a delegation of native troops had obtained admission to the palace and complained to the sultan of the new military regulations in connection with the French protectorate.

### Moors Aggressors

As the military delegation came out from the palace the soldiers composing it seized and killed a French captain. This was the signal for general pillage and massacre through out the city.

The native soldiers, pushed on by shrieking Moorish women, rushed through the streets of the city slaying all the French they could find and inciting the population to violence by the false cry of "the sultan is a prisoner of the French and must be liberated."

### Kill Telegraphers at Keys

The French telegraphers were attacked by a howling crowd and made a heroic stand, defending their office for four hours, in the meantime sending messages to headquarters at Tangier. Finally the office was broken into, the telegraphers killed, and their bodies mutilated and burned.

The heads of all the Europeans slain by the native troops were paraded through the streets on pikes. The French legation sent out relief squads of troops and brought in many foreigners, and afterwards the French artillery opened fire on the rebels, who were grouped in the northern quarter.

## FAVOR USE OF FUND TO PROPAGATE GAME

The La Crosse County Hunting and Fishing association, when its representatives appear before the special session of the legislature, will go on record as favoring the passage of a bill which will be offered asking that the surplus money collected on hunting and fishing licenses be used in the propagation of game and fish in the state instead being turned into the general fund of the state.

"I understand that such a bill will be offered," said A. T. Rasmussen today, "and I believe that all of the members of the club are in favor of such legislation. The committee that goes to Madison will be instructed to use their best efforts to help its passage. I know that it has the hearty endorsement of State Game Warden Shotts. If this money which is collected every year from the sportsmen would be spent to increase the game and fish in the state it would mean the solving of one of our greatest problems."

### Chicago Grain Letter

CHICAGO, April 23.—There was a change of sentiment in the wheat pit today and a heavy selling movement failed to bring out any substantial support to the market. Prices then declined rapidly.

Later there was a rally followed by further heavy selling. The selling movement started in a general rush to take profits by the bulls, who had carried the market along for the past two weeks. Statistics were of a bearish nature and were accompanied by reports from foreign markets that lower prices prevailed.

There was heaviness in corn futures, but not to the same extent as in wheat. There was good support in this crop in the dips.

The trade in oats was moderate and the market displayed an easy tone with not much change in prices. Provisions were very quiet with the market easy and prices considerably below yesterday's figures.

### BLACK RIVER FALLS MAY GET \$230,000

MADISON, Wis., April 23.—The relief committee of Black River Falls and a delegation of citizens from Portage conferred with the joint finance committee of the legislature and Gov. McGovern on Monday, with respect to the state aid necessary to control the flood situations at the Wisconsin cities. It is stated by the Black River Falls representatives that an appropriation of \$230,000 will be required to meet the demands of the district devastated last fall. Discussion of the levee situation at Portage occupied the afternoon conference. Dates for the visitation of the districts by the legislative committee will be selected later.

## KAULFUSS CHOSEN VALEDICTORIAN

1912 Graduating Class at High School Bestow Honor on Conscientious Student

## PRECEDENT IS OVERTHROWN

Entire Commencement Program Will Be Given by Members of the Class Only

Arthur Kaulfuss has been elected valedictorian of the 1912 graduating class. He is known as a good student, a conscientious worker, and has done much towards making the Booster a success. Selma Larsen has been elected by the class to be one of the commencement speakers. The faculty have chosen Irene Esch, Arthur Hayes and Claire Bovee to act as the other commencement speakers.

**Class Overthrows Precedent**  
The present graduating class have overthrown precedent by voting to have entire commencement program given by the class only. Instead of having the high school chorus, the class will act as the chorus. Another thing which shows the democratic spirit of the class is the girls have decided to wear very plain white linen dresses instead of the costly lace and embroidery ones that have been worn by graduating classes for years back. On the whole the class is very much out of the ordinary in their decisions upon their graduating exercises.

The second annual concert of the high school chorus and orchestra will be held in the La Crosse opera house on the evening of May third. The chorus have been working hard for the last two months under the able directorship of Miss Rollins and are now putting the finishing touches on the numbers which will go to make up the program.

Last year the chorus gave a cantata entitled "The Rose Maiden" with the assistance of outside soloists. This year the chorus will sing several different selections and will not sing a cantata. One of these numbers will be sung with the high school orchestra accompaniment.

**No Outside Soloists**  
The orchestra has been given separate numbers on the program which are sure to be features. There will be no outside soloists this year, but a violin solo by a well known violinist will be given and a glee club of high school boys will sing several numbers.

Mr. Gouldin is acting as business managers of the concert. Miss Halik and Paul Egbert will act as piano accompanists.

The management of the Booster, the high school paper, have announced that they will be able to give the Booster Annual to paid up subscribers for a very small charge and if the advertising keeps coming, they will be able to give the paper free of charge. The Annual will be twice as large as the one issued last year and will contain about seventy-five pages. The Booster has been very successful this year from a financial standpoint and a literary standpoint. Arthur Kaulfuss, editor-in-chief, and Sherwood Wing and Harry Hirschheimer have been handling the business end of the paper.

Those who are not subscribers or those who have not paid up their subscriptions the paper will cost about seventy-five cents. It will contain the pictures of all the graduates, literary societies, and athletic teams as well as many good stories.

## Hold a Fire Drill

In accordance with the proclamation issued by Governor McGovern to the effect that May third be Fire Prevention Day as well as Bird and Arbor Day, Principal B. E. McCormick of the high school outlined to the students on Tuesday morning's assembly the quickest and proper way to get out of the building.

A short time later the fire signal was given and the students filed out properly in from one and a half to two minutes.

The building is fire proof and the doorways and halls are spacious enough to allow the 640 students to pass out quickly without confusion.

## Bomb's Deadly Work

Paris is truly a city of tragedies. At a quarter past eight the other morning there was a terrific bomb explosion on the Place de Montrouge. Policemen rushed up, and found a young man of eighteen, Alfred Hervo, shrieking with pain, and rolling in agony on the ground. His face and hands were covered with blood and his clothes were burning. Two policemen put the fire out, put Hervo in a cab, and took him to the nearest hospital. The other policemen found the bomb. It had been made of two metal soap boxes tied together, and filled with powder and nails. Hervo declared that he knew nothing about the bomb. He was on his way to his work, saw the thing lying on the pavement, and kicked it off into the gutter. It broke open, and wondering what the black stuff in it was, Hervo lit a match and bent down to find out. An explosion followed.

## HIS ALIBI FAILS HIM

MAN WANTED IN CANADA BRINGS WITNESSES TO SHOW HE WAS IN NEW YORK WITHOUT EFFECT

NEW YORK, April 23.—Despite the fact that he produced several witnesses who swore that on September 16 he was in a local restaurant, John McNamara, also known as "Australasian Mack," was ordered taken to New Westminster, B. C., for trial on a charge of stealing an automobile on the night of September 15. This was merely a technical matter. McNamara was arrested here on a charge of robbing the New Westminster branch of the Bank of Montreal of \$241,000 on September 15.

No money was found in his possession. McNamara fought the case and the Canadian authorities were unable to make a case against him. The bank robbers stole an automobile to get away in. The British consul general alleged that McNamara stole this machine. He brought a teamster who swore that McNamara "looked like the man" he saw cranking the machine. McNamara produced witnesses to swear that on the morning of September 16 he was "buying wine" in a local restaurant.

## URGES INDICTMENT OF SUFFRAGE HEADS

LONDON, April 23.—Indictments against Mrs. Emmeline Pankhurst, Mrs. Frederick Pethick Lawrence and Frederick Pethick Lawrence, the latter two joint editors of Votes for Women, were recommended today by the judge presiding over the grand jury investigation of the recent suffragist outbreak.

The three suffrage leaders, the judge declared, should be charged with conspiracy to violate the "malicious injuries to property" act. Testimony was produced showing that the leaders urged the rank and file to throw stones, break window panes with hammers and otherwise destroy property.

### BUGS SET 13 FIRES

WATERBURY, CONN., CITY HALL BURNS WHEN TOWN IS PARALYZED BY THIRTEEN BLAZES

WATERBURY, Conn., April 23.—There is absolutely no clue, according to the police today to the firebug or firebugs who yesterday afternoon and last night set thirteen fires, all of which were trivial with the exception of the one which destroyed all but the walls and first floor of the city hall, causing a loss of \$200,000. A few minutes after the last fire was reported two arrests were made. One man was released and the other held until today but the police admit that they have absolutely nothing on him except that he was in the neighborhood.

All night long three companies of the state national guard were on duty in the center of the city. Today they were relieved and their places taken by city police.

In the vaults in the cellar of the ruins the city records are believed to be safe.

In nearly every instance oil soaked rags or papers were found. Today homes and public buildings were carefully watched, extra watchmen being placed in the larger buildings in the business district.

### DICKENS FITTED FOR STAGE

Kate Field, Excellent Judge of Character, Confident He Might Have Been Great Actor.

No one ever paid a much higher tribute to Dickens than did Kate Field. She had the soul of a poet, a discriminating taste in art and literature and wide knowledge of the world. In mentality she was fully as strong as either of her brilliant brothers, David, Dudley, Stephen J. or Cyrus W., and she certainly was as good if not a better judge of character.

She once wrote an appreciation of Dickens in which she declared the world lost its greatest actor when Boz became a writer. She gave a description of one of Dickens readings that was masterly in its vividness of detail. Such versatility as she credited Dickens with displaying as he assumed the character of first one and then another of his creations, the pithos, the humor, the tragedy he put into a tone; the marvelous way in which he stirred the emotions of old and young in his audience, would appear to be a bit extravagant were it not that now and then in later years some old man, looked upon as stern and unemotional, told with faltering voice how he stood in line all one night to buy a ticket to one of Boz readings, and then went on to talk just about as Miss Field wrote, only before he got as far along in his story the tears were running down his wrinkled cheeks—his old heart strings still attune to the magic of The Master.

### MISS QUIMBY FLIES ACROSS CHANNEL

Miss Harriet Quimby, the first woman in America to fly in an airplane, recently flew across the English channel from Dover to a point near Boulogne-Sur-Mer in France, making the trip in two hours. Miss Quimby is the first woman to make the perilous flight from England to the continent.

### GETTING AHEAD OF SCANDAL

Peace and Dignity of Congregation Secured by Recommendation Made to Pastor.

Parson Henderson, an evangelist of color, was caught one bright morning holding the hands of one of the ewe lambs of his congregation, who was a very popular young lady, and it created quite a stir among the colored population, relates a writer in Norman E. Mack's National Monthly. So the parson was brought up for trial and was questioned by the officers of the church as to what he meant by his action, and this is what he had to say in answer to the question propounded to him: "My brudders, you have seen these great pictures, I suppose, so you know dat the great Shepherd am always pictured with a lamb of his flock in his arms."

"Yes, sah, parson, dat am so," admitted Deacon Jones.

"Den, Brudder Jones, what am wrong in the shepherd of his flock holding a lamb in his arms?"

This was too much for Brudder Jones, so he proposed the officers of the church have a call meeting that afternoon. After the point was discussed fully the following resolution was adopted:

"Resolved, Dat for the future peace and dignity of the congregation dat the next time Parson Henderson feels called upon to take a lamb of his flock in his arms, dat he pick out a ram lamb."

### Loans of Honor.

Tip never had a mite of patience with the fellow who looks with such reverence on a debt of honor. As a rule the debt of honor chap doesn't fret a bit about bliking his grocer. But an experiment with "loans of honor"—put in the right places—has shown the average person is honest. Several years ago public spirited men "got together" at Lyons and formed what they called a Loan and Honor society. The purpose was to furnish money to clerks, laborers and apparently to any poor and needy persons. No other security than the borrower's word was asked. In 1910-11 money was lent to 384 individuals. Sixty-eight of these were women. All but twenty-seven of the borrowers were married. Sickness made 119 of the loans necessary; loss of work, 83; previous debts, 84, and starting housekeeping, 27. The sums borrowed varied from \$6 to \$60. During its several years of existence the society has lost only \$200. Yes, the average person is not a thief.—New York Press.

### WANT A NAVAL BASE

ITALIANS LAND TROOPS ON TURKISH ISLAND OF ASTROPHIA AND CRETAN ISLANDS

ROME, April 23.—It was officially announced here today that a force of Italian troops had been landed on the island of Astrophoria or Stampalia, in the Aegean sea, a Turkish possession. It is believed that the Italians plan to establish a naval base on Astrophoria, another possibly on one of the smaller islands between Rhodes and Crete, where landings have been already effected, and by maintaining the present strong naval force in the archipelago insure control of the Aegean.

This would effectually cut off Turkish commerce in the Mediterranean. No announcement of the plans of the commanders in charge of the movement was made by the officials here, however.

### Youthful Musical Genius.

Rennes, a sleepy Brittany town, which is known in contemporary history chiefly because the second Dreyfus court-martial was held there, has recently discovered in its midst a musical prodigy. A local professor vouches for this discovery. Young Rene Guillou is aged seven. He is not only a virtuoso on the piano; he is also a composer. He possesses ear to a remarkable degree, and distinguishes every note in symphonic music. According to the master, he hears music inwardly. He composes for voices and instruments without making use of any instrument whatever, writing down melody and accompaniment on to the paper.

### NOTED TURK DIES

LONDON, April 23.—A special dispatch from Rome says an official report received there is that Enver Bey, the most noted of all Turkish generals and the commandant of the advance positions of the Turkish troops in Tripoli, died at Marit today from gangrene as the result of a recent wound received in battle.

### Discovery of Little Use.

An amateur chemist recently discovered an explosive believed to be 19 times as powerful as dynamite, but the secret of its composition was lost at the time of its discovery, together with the chemist and most of the glass in the town.

### HER LUCK NOT ALL DESERVED

Printed Prayer Responsible for Return of Pocketbook Only There by Accident.

She had been paying visits most of the afternoon, and on reaching home and putting away her wraps she discovered that her cardcase was missing. In it had been a dollar or two, her cards and a certified check for \$200, which she had intended to deposit, but had been too late for her bank.

"Heavens," she exclaimed, "shall I ever see it again?" and sat down in her despair to think over everywhere she had been and might have left it. Suddenly the telephone bell rang.

"Are you Miss Blank, and have you lost anything?" inquired the person at the other end.

"Yes; I have just discovered the loss of my cardcase."

"What was in it?" said the voice.

"My cards, some money, a certified check for \$200, and, oh, yes! a little prayer on a slip of paper. Did you see that?"

"Yes," said the voice; "I picked the case up. And just let me tell you that it was that prayer that has brought your property back to you."

The cardcase owner heaved a sigh of relief and thought how lucky it was for her that a Catholic friend had slipped the little printed prayer into her cardcase last summer.

### "Solid Gold."

Commercially speaking, the term "solid gold" is a misnomer, since such gold has not been used for many, many years. Some of the ancient Roman jewelry and some of that of the Renaissance period was, indeed, made of pure gold, worked up by hand with the crudest of tools, but since the old days there has been a constantly increasing employment of alloys, for the reason that jewelers found that the harder the gold was rendered by good alloys the greater its wearing qualities and the more secure, therefore, was the setting of the gems it contained. Nowadays jewelry is of 18, 14 or 10 carats, according to the design and character of the article, and it is much more frequently ten than eighteen carats.

### NATIONALISTS FOR IRISH HOME RULE

Accept Recommendation of Redmond and Unanimously Endorse Asquith Autonomy Bill

DUBLIN, Ireland, April 23.—The convention of the Irish Nationalist party here today voted unanimously to accept and endorse the Asquith home rule bill proposed in the house of commons by the liberal government. After John Redmond, the leader of the Nationalists in the house of commons, had given his unqualified approval of the bill the convention pledged the support of the Nationalist party to the measure.

Redmond advised the acceptance of the measure in its entirety as the best home rule that could be expected at this time, but it was considered extremely probable that the convention would endorse the bill qualifiedly, demanding certain amendments in the fiscal policy for Ireland outlined in the Asquith measure. The Nationalists generally believe that complete control of the finances of Ireland should be vested in the Irish authorities under the bill.

Thirty-five hundred delegates were in attendance when the convention met. John O'Callaghan represented the United Irishmen of America.

Great crowds were at the hall when the convention was convened long before the meeting opened. Fearing a suffragette disturbance the officers in charge ordered all women excluded from the building.

### PROBLEM FOR THE SCIENTIST

How May the Energy of the Sun, at Present Largely Wasted, Be Utilized to Advantage?

The enormous energy which is constantly poured out by the sun is almost past the comprehension of the lay mind.

Measurements have shown that on a clear sunny day the sun transmits to the earth energy which corresponded to about 7,000-horsepower per acre. At present all that is practically wasted. Attempts have from time to time been made to utilize this enormous supply of energy, but not with any great measure of success. If people only knew how to harness it they could, at the expense of lowering the temperature of the earth by a degree or so, obtain all the power necessary to perform the work of the world. Only about three-fifths of the energy sent to the earth from the sun is appreciable to the eye as light. If the sun were twice as hot as it is, four-fifths would be appreciable in that way, and if it were still hotter the whole of the energy would affect the eye as light. Radiant energy is not heat; that is, the energy of the sun does not reach the earth in the form of heat. It is not heat at all until it falls on bodies whose temperature can be raised. It might rather be called electricity; in fact, it is a form of electricity, for all the methods used to detect and measure radiant energy depend upon absorbing it and transforming it into heat.

### "Liked to Be Gulled."

Sir William Gull, the well-known London physician, was once the victim of an amusing piece of repartee on the part of a fellow practitioner. The occasion was a dinner party at which several distinguished medical men were present. The conversation happened to turn upon the subject of quackery, and Sir William Gull expressed his conviction that a certain amount of it was essential to success in practice, adding: "It is an example of the old saying, 'Populus vult decipi'" (people like to be deceived).

"Quite so," said the host; "now, can any one present give an English equivalent to that?" "Nothing easier," dryly remarked a well-known physician of one of the Manchester hospitals. "The public liked to be 'gulled.'"

### The Danger After Grip

lies often in a run-down system. Weakness, nervousness, lack of appetite, energy and ambition, with disordered liver and kidney often follow an attack of this wretched disease. The greatest need then is Electric Bitters, the glorious tonic, blood purifier and regulator of stomach, liver and kidneys. Thousands have proved that they wonderfully strengthen the nerves, build up the system and restore to health and good spirits after an attack of Grip. If suffering try them. Only 50 cents. ### MR. AND MRS. CLARENCE MOORE

### THEY ARE ALL INDICTED

HEADS OF LAWRENCE STRIKE ARE SECRETLY CHARGED WITH MANY CRIMES

LAWRENCE, Mass., April 23.—William D. Haywood, leader of the Industrial Workers of the World; James P. Thompson, a national organizer, and Edmund Rosini of the same organization, were among those secretly indicted at Newburyport last week, according to announcement made today.

Joseph Scute was indicted, charged with the murder of Annie Lopizzo, the striking textile operative shot during a clash between police and strikers on the afternoon of January 29.

Haywood is indicted on twenty-two counts, charging conspiracy to intimidate. The same charges are contained in the indictments against Thompson and Rosini. All the indictments grew out of the Lawrence strike troubles.

### SCHOOL BOARDS "STUNG."

MADISON, Wis., April 23.—Cheap reprints of editions of Webster's un-

## WARSHIP TO FOLLOW ATWOOD IN FLIGHT

Harry N. Atwood.

Aviator Atwood, who has accomplished some remarkable feats in aviation, is to try to cross the Atlantic in a heavier than air machine. This will be the first serious attempt in such an airship. The flight will take place sometime during May. The United States Navy is to detail some of its fastest war vessels to follow the flight and assist in case there is need.

## HUNT REFEREE FOR M'FARLAND-WELLS GO

NEW YORK, April 23.—Managers of Packey McFarland and Matt Wells, who will meet Friday night, and the matchmakers of the Garden Athletic club, are in session today, to select a referee for the bout. The fighters favor Charles White, but the club managers oppose him. The names of James J. Corbett and Jack McGuigan have been proposed, but since both are non-residents, they will both probably be rejected.

## CUE TITLE AT STAKE

ST. LOUIS, Mo., April 23.—John Daly, challenger for the three cushion billiard title, arrived today from Chicago, for his match with John Horgan, the title holder. The championship match will take place on Thursday, Friday and Saturday nights. Daly has agreed on a \$250 side bet with Horgan.

## TWO GAMES ALL IN BIG LEAGUES

Cincinnati Beats Cardinals 9 to 6, and St. Louis Americans Beat Detroit, 7 to 4

## NATIONAL LEAGUE

Cincinnati 9; St. Louis 6  
CINCINNATI, April 23.—The Reds strengthened their hold on first place by winning a hard hitting game from St. Louis yesterday, 9 to 6. Seven pitchers were used, three by the home team and four by the visitors. The hitting of Bescher, Mitchell, Oakes and Konechky featured the pastime. Score: R H E  
St. Louis . . . 105000000—6 2 1  
Cincinnati . . . 23020020x—9 12 0  
Batteries: Sallee, Dell, Geyer, Willis and Bliss; Humphreys, Bagby, Keefe and McLean.

## AMERICAN LEAGUE

St. Louis 7; Detroit 4  
ST. LOUIS, April 23.—After the Tigers tied the score in the seventh with four runs, the Browns shoved across three tallies in the eighth and broke their losing streak. The final score was 7 to 4. Manager Wallace played his first game of the season, returning to short. Score: R H E  
Detroit . . . 000000400—4 5 4  
St. Louis . . . 20001103x—7 8 1  
Batteries: Willett and Stange; Bailey, Hamilton and Krichell.

## AMERICAN ASSOCIATION

Minneapolis 1, Columbus 10  
COLUMBUS, O., April 23.—Fighting to the last man, the Senators failed to tie up the score in the ninth yesterday and lost to Minneapolis, 11 to 10. Score: R H E  
Minneapolis . 020023400—11 9 6  
Columbus . . . 301100221—10 9 1

## ST. PAUL 10, Toledo 9

TOLEDO, O., April 23.—The Mud Hens were nosed out by the Saints here yesterday afternoon in a loose-ly played game, 10 to 9. Score: R H E  
St. Paul . . . 300240010—10 12 4  
Toledo . . . 004001400—9 9 5  
Batteries: Karger, Decanniere and Block; Higginbotham, Callamore and Carlsch.

## KECKIE MOLL IS BADGER CAPTAIN

MADISON, Wis., April 23.—Keckie Moll is the new captain of the Wisconsin baseball team. The erstwhile football star was chosen to succeed Chester W. Horner, resigned, just after the Wisconsin team lined up against Purdue in the contest which the Badgers won, which seems to augur well for the period of Keckie's captaincy. The election of Moll breaks an old precedent in the university as Moll is the first man ever elected captain who has not won a W in baseball. He is a first year man on the team, but has proven his ability while acting as captain in the absence of Horner, and should make an ideal leader for the Badgers.

## BAD FOR CHAMPS SAYS JIM FLYNN

HOT SPRINGS, Ark., April 23.—"This is a bad year for champions and by the time July four comes around, it is going to be worse." "This hunch" was expressed today by Fireman Jim Flynn today after he had taken a good rest at his training quarters here and had prepared to begin his long training siege that will put him in trim for his championship battle with Jack Johnson.

"I shall have Jim Corbett in my corner when the big fight takes place," continued Flynn. "Corbett has promised to help me and Tommy Ryan arrives here tomorrow."

## KLING SAYS HUB IS BETTER BALL CITY

NEW YORK, April 23.—The Phillies in their first two games in Boston this season got more money than they did in the Hub City all of last season," declared Johnny Kling, manager of the Boston Nationals here today. Kling said emphatically that his club got the better of the Donlin-Campbell trade and added that when the weather clears, he plans to shift Arthur Devlin, the former Giant, from first to third.

## FARGO PLANS HOMECOMING

FARGO, N. D., April 23.—Fargo is planning a homecoming week and celebration during the North Dakota state fair, July 22. Former residents of this city during the boom days are scattered from New York to California and thousands are expected to attend.

## ASK TRUST LETTERS

WASHINGTON, April 23.—A resolution passed by the senate calls upon Attorney General Wickersham to submit to the senate all correspondence between the government and the Harvester trust, involved in the negotiations for a proposed reorganization of the trust.

## GRAPPLERS DUE IN LA CROSSE TODAY

Walter Miller and Jack Little are due to arrive in La Crosse today to be here four days in advance of their wrestling match which is scheduled for the Majestic Theater Friday evening. According to the agreement, both of these men posted a forfeit of \$100 that they would appear here four days before their match and remain in the city until Friday.

Letters from Miller and Little say that both men are in the best of condition for their bout Friday and both are anxious to enter the arena to decide which is the better man. These men are evenly matched and a great match will follow when they meet Friday evening. Each is determined to defeat the other for the winning of the bout means much to both and some of the best wrestling ever seen here is bound to ensue. A good preliminary match will be held before the main bout of the evening.

## NO WOMAN TEAMS

NEW YORK, April 23.—Women athletes were angered today when it became known that the Olympic executive committee had decided that none of the feminine sex would be allowed to represent the United States at the Olympic games this summer. The committeemen have instructed the different selection committees not to pick a team of women swimmers as had been proposed.

## WEATHER CAUSES A LOSS TO MAGNATES

NEW YORK, April 23.—The weather man is playing havoc with the coffers of the baseball magnates. Since the season opened April 11, the schedule of the National and American leagues called for eighty-six games. Because of wet and bad weather, only sixty contests have been played. The weather man also worked overtime during the training season. Probably the heaviest losers on the weather are the Boston Red Sox and the Highlanders. Opening day in the Hub was spoiled by rain and also Patriots day, a universal holiday in Beantown, when two games were scheduled.

All teams have also been greatly handicapped by having valuable men injured. The Phillies alone have seven capable players sick, and each of the other teams in the big leagues have one or two men on the hospital lists.

## BADGERS BEAT THE HOOSIER BALL BOYS

BLOOMINGTON, Ind., April 23.—Wisconsin batted in four runs in the seventh inning and won from Indiana, 5 to 4. The score: R H E  
Indiana . . . 020000020—4 5 2  
Wisconsin . . . 000100400—5 5 5  
Batteries: Freel and Winters; Savage and Roberts, Brewer.

## FAN-ATICAL FANCIES

Larry Cheney, the Chicago Cubs' recruit, is proving a winning pitcher for Chance this year. In two games the spitballer has emerged victorious both times and he has pitched great ball on both occasions. His first game against St. Louis was worthy of a shutout but errors let the Cardinals score. However, on Sunday he calmed none other than the Pittsburgh Pirates and he allowed them five hits in addition to getting the mighty Hans Wagner down on strikes once.

After a brilliant start when they won four out of the first five games the St. Louis Cardinals experienced a slump in their playing and they have been losing with great regularity of late. Their defeat of yesterday by the Reds puts them below the .500 mark.

Rainy weather has prevented the majority of the games in the big leagues so far this season and as a result the teams are not in good condition as yet due to the fact that poor weather conditions existed during the training trips. Unless the weather warms up and the rains cease it is probable that the clubs will not be playing their best games until July.

The Columbus team of the Ameri-

can Association is setting a hot pace for the other clubs of that circuit as they have won nine out of their first eleven games. Minneapolis handed them their second defeat of the season yesterday. The champion Millers have not had such a winning streak as have the Senators but they are now only two games behind the leaders due to yesterday's games.

The New York Highlanders are proving to be the most consistent losers in the big leagues this season. Up to date the record of the Yankees shows six defeats and not a victory. Several of the games in which Wolverton's men were beaten were hard luck affairs but the club have to start winning shortly or they will have a big handicap to overcome.

It is reported that Cy Young, the Grand Old Man of Baseball, has retired from the game in order to be a baseball scribe on a Boston paper. Young is the real veteran of the national game for he has been in the big leagues for twenty-five years and by pitching over 500 victories he has a record which may never be beaten or even tied by any other twirler. Young retired voluntarily for although the Boston Nationals were willing to retain him, Cy announced that he was going to quit. The veteran was one of the most popular men in the game and there is genuine regret that he has retired.

## WATCHING THE SCOREBOARD

And now come the scarlet hued baseballists from Cincinnati calmly maintaining the lead. Can this be true?

The Cardinals put fourteen men onto the field in a vain effort to stop the Reds. Four of them were pitchers.

Out of seven games scheduled, five were postponed by rain. One game in each of the big leagues was the fan fodder offered, and the Reds and Cardinals played in a drizzle. Jennings ought to sharpen the Tigers' claws. They dropped another to the Browns.

The Tigers made four in one inning but that was not enough.

## CUBS GET SOUTHPAW

CHICAGO, April 23.—A new left-handed pitcher has been added to the payroll of the Chicago Cubs. He is J. F. Maroney, a cast-off of the Detroit Tigers, with whom he made the spring training trip. Maroney is a free agent and was strongly recommended to Chance last fall.

## COULON FORCED TO REST

CHICAGO, April 23.—Johnny Coulon's invasion of Manhattan for a campaign against the classiest men in the east, has been called off for the present at least, owing to a change of management in the Madison Athletic club.
